

NOTICE:

SAVE MI HEMLOCKS PUBLIC INFORMATION MEETINGS

Join us and bring a friend for a program designed to introduce homeowners and land managers to the threats presented by the Hemlock Woolly Adelgid, an invasive forest pest currently detected in Allegan, Ottawa, Muskegon and Oceana counties.

Learn about the efforts being undertaken to report, survey and control the extent of infestations and how you can help!

To learn more about public information sessions please contact Daria at daria.gosztyla@macd.org or 616-414-2055. For more information about the Hemlock Woolly Adelgid please visit www.saveMIhemlocks.org
