Lower Muskegon River Hydrologic Reconnection Fish and Wildlife Habitat Restoration Project

Kathy Evans, Environmental Program Manager
West Michigan Shoreline Regional Development Commission (WMSRDC)
316 Morris Avenue, Suite 340
Muskegon, MI 49440

Attn: Erin Kuhn, WMSRDC Executive Director: Lower Muskegon River Bid

**Mandatory Pre-Bid Meeting Date: November 7, 2018 2:30 PM
Closing Date: 1/22/2019**

Sealed bids for *Lower Muskegon River Hydrologic Reconnection Fish and Wildlife Habitat Restoration Project* will be accepted by WMSRDC until 2:30 P.M. on Tuesday, January 22, 2019, with a public bid opening to be held immediately at the office address listed above.

Approximate project scope will entail:

- Dewatering approximately 57 acres of flooded former celery fields, with discharge into the Muskegon River
- Construct temporary access roads and staging areas as necessary within the dewatered ponds
- Excavation and on site placement on site of 72,500 cubic yards of soil
- Excavation and removal from site of 29,500 cubic yards of soil
- Excavation and removal of two berms separating two former celery fields from Bear Creek
- Excavation and removal of approximately 775 cubic yards of contaminated soil
- Installation of approximately 36.1 acres of native wetland seed
- Installation of approximately 34,538 native plants
- Installation of erosion control blankets, silt fence, and turbidity curtain within project area

90% drawings and specifications are expected to be available at the time of the site visit. The site visit has been scheduled before final drawings are available to allow Contractors to visit the site before the onset of winter. 100% drawings and specifications are expected to be available in December, 2018. Documents will be available electronically from an FTP site at no cost.
