Thank you for your comments. I will forward your message on to the committee and make sure that it is included in the public comment portion of the meeting.

We are actually just getting ready to host a meeting regarding a number of these items. The West Michigan Shoreline Regional Development Commission (WMSRDC) is assisting the Southwest Michigan Planning Commission (SWMPC) and the Michigan Department of Transportation, Office of Passenger Transportation (MDOT OPT), in the development of coordinated transportation plans. These plans will identify mobility needs and potential improvements in each region — particularly for older adults, people with disabilities, and people with lower incomes. I will make sure to include you on the list. The meeting will be held virtually on March 9, 2023 from 10:00 a.m. until 11:30 a.m.

Thank you,

I am unable to attend the meeting on this date but I would like to inquire as to the future planning to meet community needs for those with transportation needs who also have mobility challenges. We receive at least 10 calls a week for support to and from appointments for individuals that have mobility barriers. We provide this support already through Medicaid and Medicare funding and only a small amount of 5310 funding. There continues to be ongoing community needs and especially to those communities that do not have public transportation.

Pioneer Resources is willing to seek grant funding to seek out the financial support to provide this greatest community need.

We are currently working through the senior millage to offer some defined transportation support, we have a short term grant from Senior Resources for senior transportation. But these funds are not enough to meet all needs and or cover all costs.

We would love to work together to find additional solutions to our community members transportation needs. Pioneer Resources is the largest transportation provider in Muskegon County.

Please let me know how we can provide assistance to you.

Public Comment Sought at Transportation Committee Meeting on February 15, 2023

The Muskegon and Northern Ottawa County Metropolitan Planning Organization (MPO), which is responsible for transportation planning in the area, is seeking public comment on the transportation planning process. The planning process includes the 2045 Long Range Transportation Plan (LRTP), the Fiscal Year 2023 – 2026 Transportation Improvement Program (TIP), Federal Transit Administration (FTA) Program of Projects (POP), and other agenda items.

The TIP is developed in a cooperative effort between federal, state, and local officials and serves as the final link in the transportation planning process. Its primary purpose is to identify transportation programs and projects to be funded with federal aid in accordance with federal law and regulations. This plan is an outline of the transportation needs of Muskegon County and Northern Ottawa County for the next four years. The LRTP is a look at the MPO's future transportation network and is to be used as a guideline for transportation investment. The FTA POP includes 5307 and 5308 funds for the Muskegon Area Transit System and Harbor Transit. Recommendations for new construction, safety improvements, congestion (traffic) management, air quality, non-motorized, transit, planning, etc. will be accepted.

A public comment period is scheduled at the MPO Policy Committee Meeting on February 15, 2023 at 1:30 p.m. The meeting is being held at the office of the

West Michigan Shoreline Regional Development Commission, 316 Morris Avenue, Suite 340, Muskegon, Michigan. Meeting materials are available on the event calendar at www.wmsrdc.org and also on the meetings page at <https://wmsrdc.org/policy-meetings/>.

You are receiving this correspondence because you, your agency, and/or organization are considered important in the transportation planning process.
