E. PUBLIC TRANSPORTATION – Mr. Bob Lukens discussed the MATS transit numbers on behalf of MATS. He elaborated on the numbers that were distributed to the committee regarding the minor decrease in transit usage, but a significant increase in micro transit numbers. Currently, there is an RFP out for micro transit services – their current 5-year contract with Via is ending in 2026. Mr. Lukens moved on to updating the committee on the Muskegon airport, stating that November had 7 total cancelations, and some occurred in December. There will be a new flight schedule introduced during the

work week. He added that conversations with Denver Air Connection regarding a potential future DET connection has begun.

Mr. Scott Borg added an update for Harbor Transit, stating that their environmental review process for their new facility has concluded and they expect to be breaking ground in the spring.

F. MDOT UPDATE – Ms. Heather Bowden announced that the FY 2027 Federal Aid Buyout CFP is out now and that there is now \$50 million available instead of the \$45 million that was initially expected. Ms. Bowden explained the benefits of applying for this program and proceeded to recommend getting applications in sooner rather than later as it is a first-come first-served program. Acceptance into this program starts January 6, 2026 and closes January 23, 2026.

G. AIR QUALITY UPDATE – Ms. Lauryn Blake mentioned that the WMCAC is meeting on Friday, December 19, to discuss budget and joint purchases, as well as to discuss the upcoming Clean Air Action season preparations.
